

## **Brewery Introduction:**

Gulf Islands Brewing, makers of **Salt Spring Island Ales**, is located in The Fulford Valley on Salt Spring Island in British Columbia. The brewery is located within a 2500 sqft wooden barn, built from trees fallen on-site. It is situated at the foot of Mount Bruce and at the site of the Brewery's natural spring.

Down the valley from our brewery, next to the rusty-roofed barn, you can find our very own little hop plantation. From farm to cup, we aspire to create beers that embody the flavor and character of the islands.

Our highly flavourful beers pair wonderfully with good food and are the perfect accompaniment to locally-sourced gastronomic fare. Brewed and bottled entirely by hand, our beer is made in small batches using traditional, unhurried methods.

Our beer is fresh and unpasteurized. No preservatives, no chemicals, just purely delicious beer.
